**Subject:** RE: Letter of Recommendation

Heather Asa was intimately involved in the remodel/addition of the Oral and Maxillofacial surgery clinic at OHSU. I was responsible for \$2,050,000.00 of the fund raising that allowed for the remodel. I am deeply vested in the project. The added conference room is named after my childhood next door neighbor, Jimmy Goode.

Heather maintained a high level of professionalism throughout the project. A big smile and yet firm as to expected outcomes. Meetings were efficient and yet light hearted. This type of project has a lot players and a potential for a lot of "noise". Heather was a wonderful project manager. She gave credit where due and diffused the prima donna's when necessary.

In my previous life, I was in private practice as well as a businessman. In my role as chairman of the board of a 375 bed hospital system, I was fortunate to be involved in several large construction projects. I only wish Heather Asa would have been available to help manage a few of these projects.

Please don't hesitate to contact me if you have any questions.

Patrick V Hagerty DMD  
Asst. Professor  
Oral and Maxillofacial Surgery  
Oregon Health and Sciences University
